# Product catalogue

Our catalogue shows the recommended range of species and products available for retail.

We do have a very broad range of other species, some of which are extremely rare and require a larger display.

Please enquire should you wish to explore a broader range.

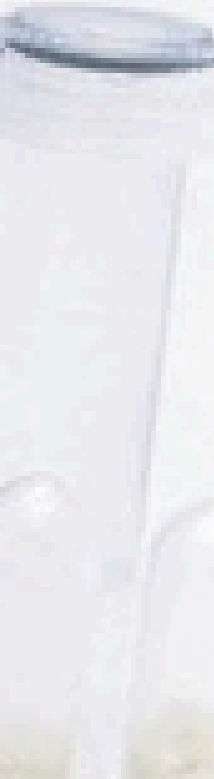

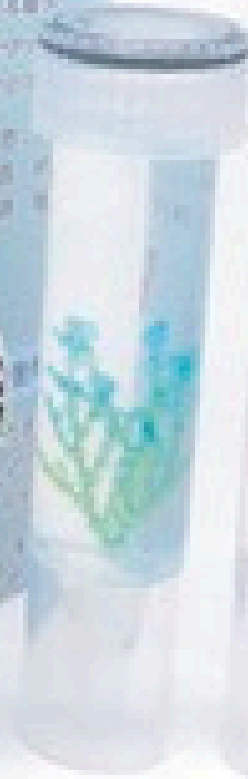

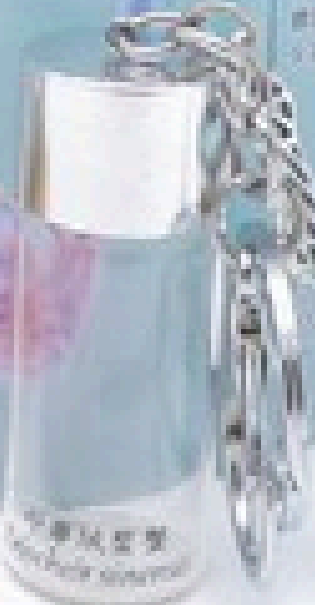

# DIY Kits

For the tinkerers. Your customers can build their own little aquascape keychain!

We recommend a range of 3 species to carry; a prawn, a crab, and a fish.

Comes with glow-in-the-dark sand, and aquatic plant, some ornaments, and all the tools required

DIY 組合包

Goldfish

Japanese  
Swamp  
Shrimp

Chinese  
Mitten  
Crab

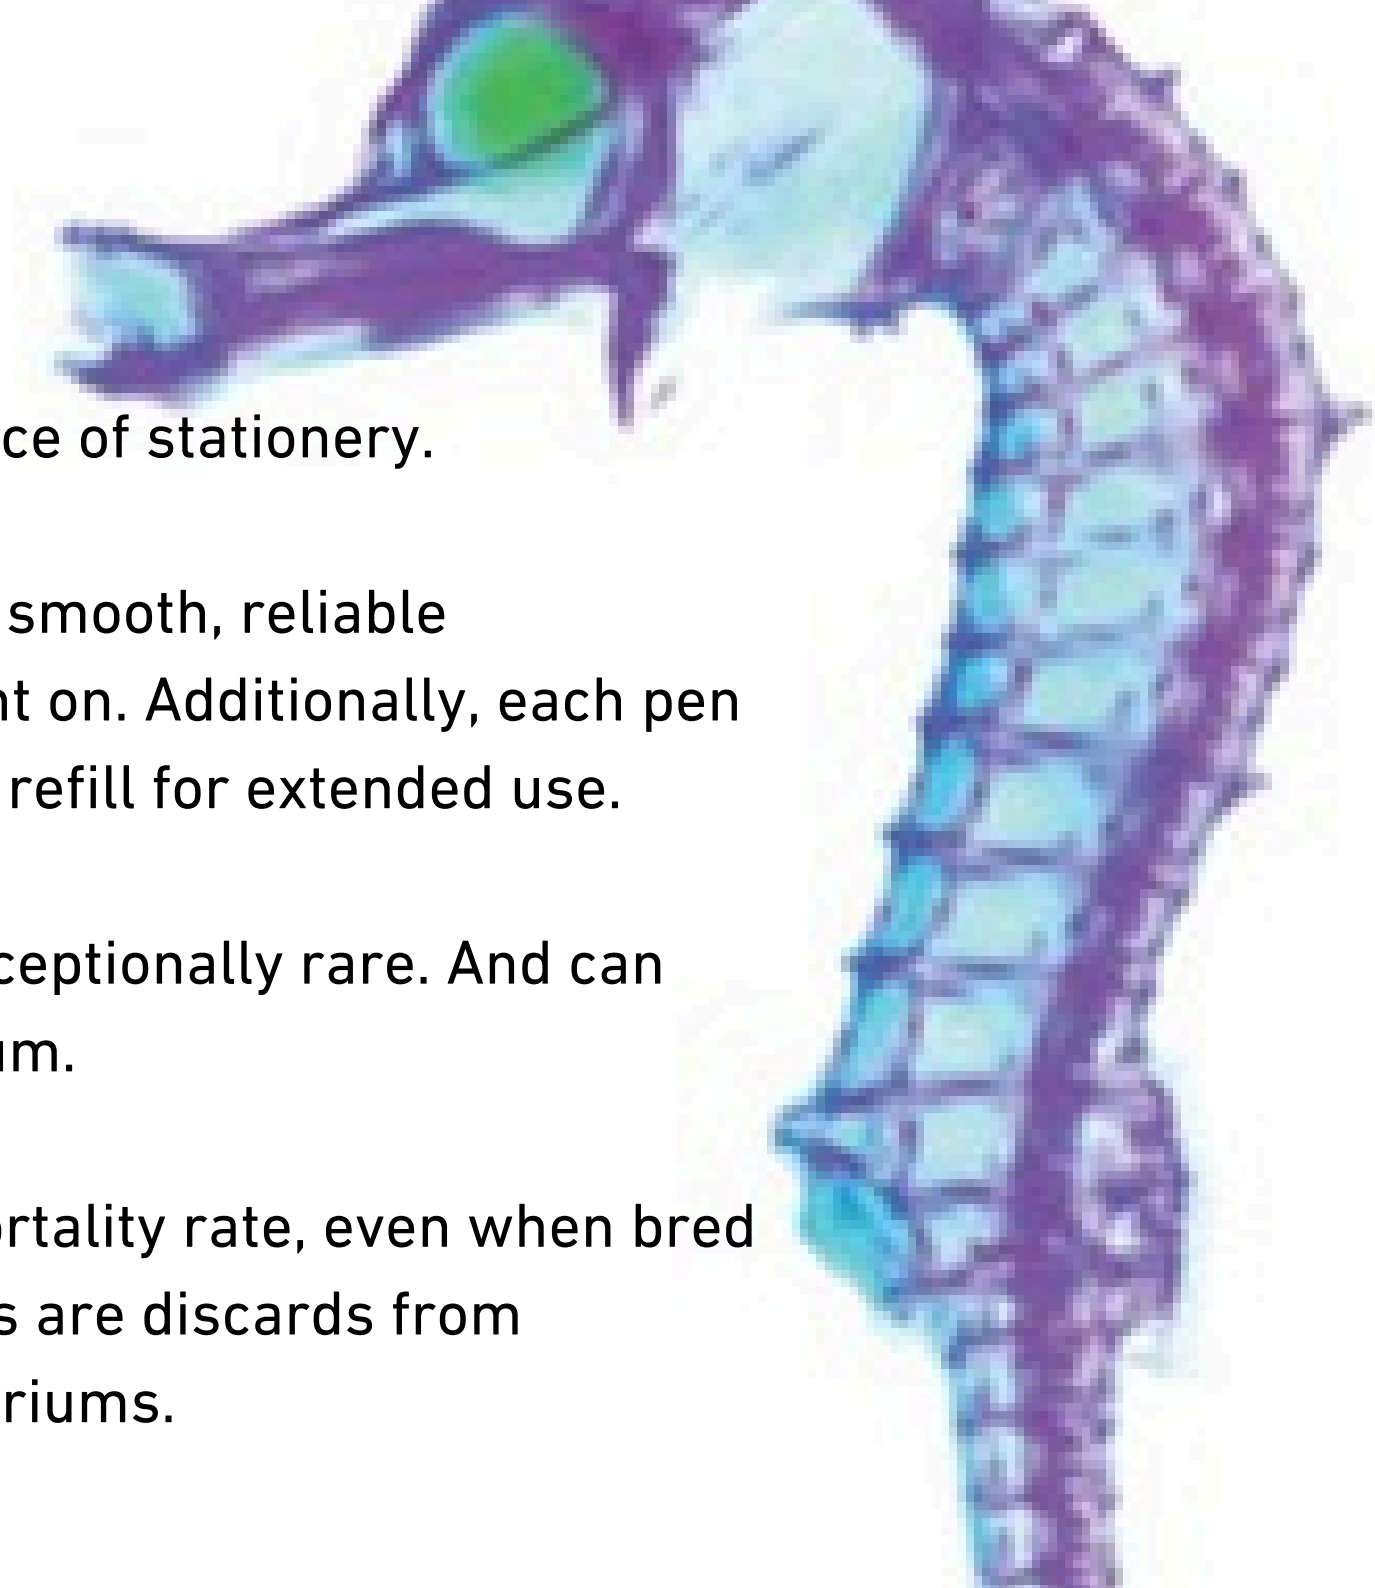

# Pens

A great conversational piece of stationery.

Our ballpoint pens deliver smooth, reliable performance you can count on. Additionally, each pen includes a complimentary refill for extended use.

The seahorse pens are exceptionally rare. And can command a higher premium.

Seahorses have a high mortality rate, even when bred in captivity. Our specimens are discards from certified suppliers to aquariums.

# Longsnout Seahorse

Specimen size

12 - 28 mm

*Hippocampus Reidi*

Japanese Swamp

Shrimp

Specimen size

20 - 25 mm

*Macrobarachium Nipponese*

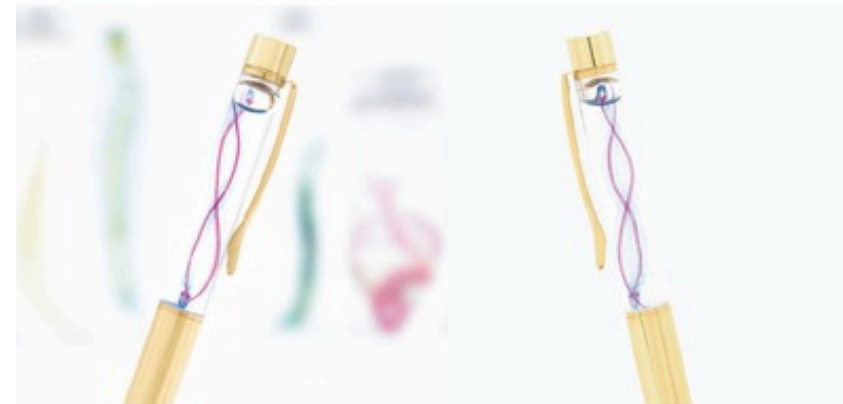

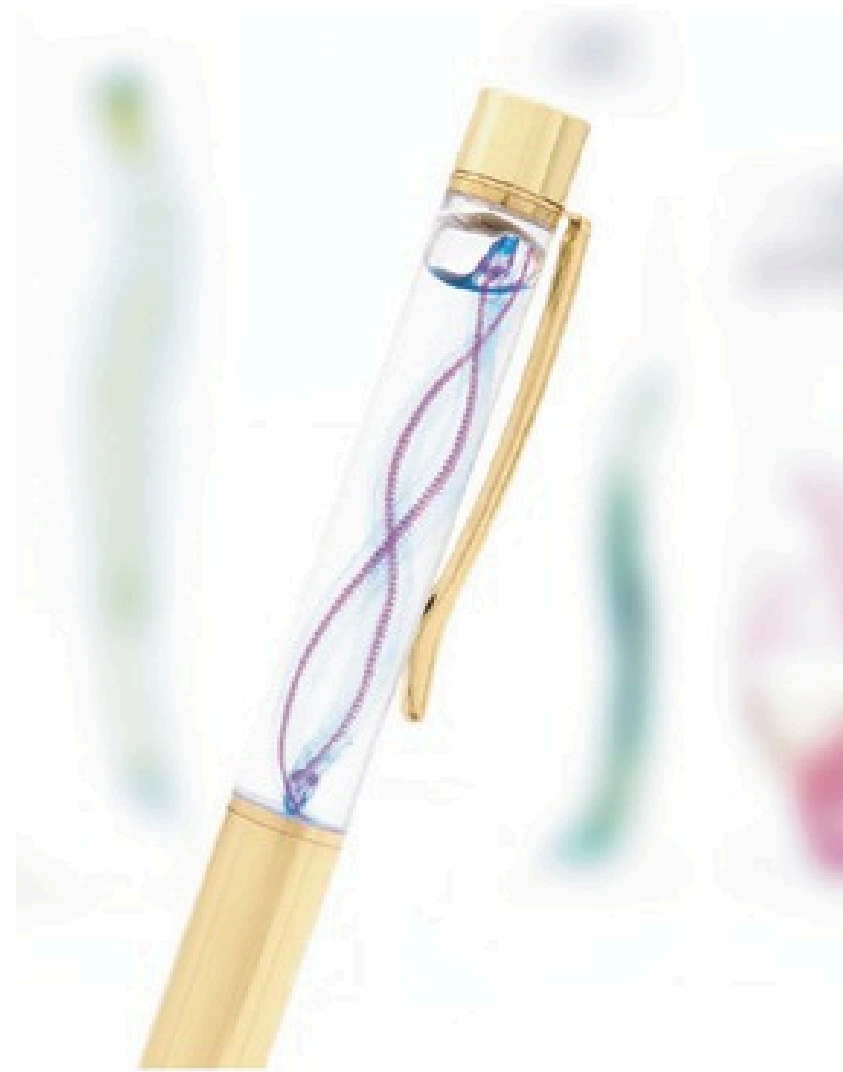

# Giant Mottled Eel

Specimen size

38 - 42 mm

*Anguilla Marmorata*

# Mosquito Fish

Specimen size

20 - 30 mm

*Gambusia Affinis*

# Keychains

Our beautiful specimens can be brought about anywhere or as an accessory.

Like our pens, we do have a range of seahorse keychains. We use the smaller specimens for keychains.

Our aquatic plants have glow-in-the-dark sand. Making them a unique accessory.

# Big Belly Seahorse

Specimen size

8mm

*Hippocampus Abdominalis*

Transparent  
Seaweed  
Specimen size  
12 - 18mm

# Neocaridina Shrimp
