# Twinkling Lollipops

*Powered by a special LED stick, these candies pulse and glow in all rainbow colours.*

*Every one is unique, and individually hand crafted by a 3rd generation of confectioners.*

*Only the safest Japanese colourings are used. Careful safety considerations have also gone into the design of the light sticks, which are made of non-toxic food grade plastic.*

*As a result, the candies are certified safe by CE and RoHS through independent tests.*

A photograph of a sugarcane field. In the foreground, several tall sugarcane stalks with green leaves and reddish-brown stalks are visible. A dirt path winds through the field towards the background. In the distance, there is a traditional house with a brown roof and a mountain range under a clear blue sky with some light clouds.

What makes us special?

The real magic is in the candy itself.

We use only the best high-grade sugar from Taiwan. These are free from preservatives.

Quietly making people happy for decades, Taiwan sugar is slowly gaining traction amongst artisans for its unique qualities

# Upcoming developments

## Halal Certification

Our candies will be halal certified by November 2025

## Packaging update

New packaging and displays are being developed, to add a little sparkle to retail outlets

# Safety Certifications
